

Dalby State Highschool Laptop Specifications

Program Details

If you have not already, check out the new Dalby SHS BYO Purchase portals!

The BYOL program supports, filtered internet access, and file storage through the department's network while at school. Please note that the program does **not** include technical support or device charging.

Important Notes

- Apple products (Mac Book, Mac Book Air, Mac Book Pro) are compatible for internet access only. Printing and network drives will not be operational.
- iOS and Android devices are not supported.
- ARM based devices are not currently supported by EQ
- Battery must hold charge for at least 6 hours.
- Microsoft Defender is included. If installing a preferred anti-virus, note that AVAST is not compatible.
- Windows OS and Microsoft applications must be fully updated before enrolment.
- Parental control services may cause network proxy issues.
- The DSHS P&C Association offers a locker system for safe storage.
- Specific component combinations may still cause network issues.
