Creating the future; every student, every day

Dear parent/guardian

The transition into high school can be a very nerve wracking, yet exciting time in your child's schooling journey. We would like to take this opportunity to introduce ourselves as staff from Dalby State High School that will play an integral part in this journey.

Hannah Portbury – 2025 Year 7 Coordinator

After spending a number of years teaching high school at Bell, I have transitioned to Dalby State High School and can personally say that this school has a wonderful, welcoming community. For students beginning their high school journey, there are excellent processes and policies in place to offer support. This includes the range of support people that are available to ensure each child's journey through high school is as smooth as possible. One of such supports is their Year Level Coordinator. As the Year 7 Coordinator for 2025, I am the go-to person for any questions, concerns or issues that may arise throughout the year, liaising with teachers, parents and students where necessary. I am so excited to be involved in assisting them in their transition and look forward to mentoring them in their journey.

Danielle Lambert – Year 7 Head of Year

Welcome to Dalby State High School! As a Dalby local and past student of DSHS, I can attest to the fact that this school really does have something for everyone. This begins in Year 7, with it being the foundational year of high school in which we allow our students to experience everything that is on offer through their core subjects, elective rotations and extra-curricular activities. Starting high school can be a daunting and challenging experience but there is a huge array of support to assist each student including myself. In my role as Head of Year, I assist the Year Level Coordinator, along with putting supports into place for behaviour management, attendance and working with support staff to help students achieve their best. I look forward to working with all parties to make this transition from primary school to high school a positive experience.

We look forward to introducing ourselves early in term 4, and seeing your child at these transition lessons, as they begin their high school journey.
