Creating the future; every student, every day

Dear parent/guardian

The transition into high school can be a very nerve wracking, yet exciting time in your child's schooling journey. We would like to take this opportunity to introduce ourselves as staff from Dalby State High School that will play an integral part in this journey.

Tyler Westerland – 2024 Year 7 Coordinator

I am beyond excited to meet our new Year 7 cohort very shortly. I know that the transition to high school can be daunting, but my goal as the Year 7 Coordinator for 2024 is to make their transition as supportive and enjoyable as possible. Having moved to Dalby at the start of 2022 from Brisbane, I am confident in saying that Dalby State High has endless opportunities and supportive staff members that your child can access to allow their success in their high school journey. Our school has a wide range of support people who are available to our students to ensure that your child's journey is safe, successful and supportive. As their Coordinator, my role is to be their go-to-person for any questions, concerns or issues that they may have throughout the year. Further, I communicate with teachers, parents and students to ensure that they feel welcomed and heard within our school. I am excited to begin assisting in their transition and cannot wait to support them throughout year 7 and beyond.

Danielle Lambert – Year 7 Head of Year

Welcome to Dalby State High School! As a Dalby local and past student of DSHS, I can attest to the fact that this school really does have something for everyone. This begins in Year 7, with it being the foundational year of high school in which we allow our students to experience everything that is on offer through their core subjects, elective rotations and extra-curricular activities. Starting high school can be a daunting and challenging experience but there is a huge array of support to assist each student including myself. In my role as Head of Year, I assist the Year Level Coordinator, along with putting supports into place for behaviour management, attendance and working with support staff to help students achieve their best. I look forward to working with all parties to make this transition from primary school to high school a positive experience.

We look forward to introducing ourselves early in term 4, and seeing your child at these transition lessons, as they begin their high school journey.
