Strategies implemented included:

\*Use targeted and focused intervention for students at risk of not achieving NMS (identified through NAPLAN and achievement data analysis), through small group within the class, facilitated by Heads of Department of Mathematics and / or English.

\*Use PAT-M and PAT-R diagnostic tests, completed each term for all students with an Individual Learning Plan, to gauge improvement and effectiveness of intervention strategies and to triangulate diagnostic data against NAPLAN scores and achievement data.

\*Build capacity in classroom teachers to provide extension and acceleration to students (identified through above data analysis) to progress to the Upper Two Bands in NAPLAN, through capacity building professional development facilitated by Master Teacher.

\*Support students in class to achieve a C or better in English Communication and Pre-Vocational Mathematics, securing a Literacy & Numeracy completion and 4 QCE credits.

\*Continue to implement the 7 Steps of Writing program to improve teachers' ability to assist students with writing.

\*Align all work with the Dimensions of Learning Framework as a research-based model to guide practice and measure success.
