

Certificate II in Agriculture

Overview

The Certificate II in Agriculture is designed for those students interested in a career in agriculture (or related fields). It is a nationally recognised qualification related to livestock, cropping, horticulture and general agricultural practices. It provides an entry level occupational outcome in agriculture. It prepares students who are interested in gaining employment in the agricultural industry directly from school with both livestock production and cropping contexts as a job focus.

As well as specific agricultural skills, this qualification gives students other employability skills such as: communication, teamwork, problem solving, initiative, planning, organising, self-management and technology. It also prepares students for further training pathways which include, but are not limited to: Certificate III in Agriculture, Certificate III in Feedlot Operations, Certificate III in Agriculture (Dairy Production), Certificate III in Pork Production and Certificate III in Horse Breeding.

There are no pre-requisites to choose the Certificate II in Agriculture, however, study in the Junior Agriculture Subjects and the Certificate I in Agrifood Operations would be an advantage.

Note: This program is delivered at Dalby State High School Bunya Campus one full day each week (i.e. other classes may be missed on the regular timetable). Early starts and late finishes may also be necessary at times throughout the year.

Units studied

AHCOHS201A	Participate in OHS processes	Core
AHCWRK209A	Participate in environmentally sustainable work practices	Core
AHCBAC201A	Assist agricultural crop establishment	Elective
AHCHM201A	Apply chemicals under supervision	Elective
AHCINF202A	Install, maintain and repair fencing	Elective
AHCLSK202A	Care for health and welfare of livestock	Elective
AHCLSK204A	Carry out regular livestock observation	Elective
AHCLSK205A	Handle livestock using basic techniques	Elective
AHCLSK206A	Identify and mark livestock	Elective
AHCLSK207A	Load and unload livestock	Elective
AHCLSK209A	Monitor water supplies	Elective
AHCLSK210A	Muster and move livestock	Elective
AHCMOM202A	Operate tractors	Elective
AHCMOM203A	Operate basic machinery and equipment	Elective
AHCPMG201A	Treat weeds	Elective
AHCWRK204A	Work effectively in the industry	Elective
AHCWRK205A	Participate in workplace communications	Elective
